

Explore Outdoor Living AT ITS BEST!

A new feature at this year's Parade of Homes is the G2 Outdoor Living Showcase. Here you will find a fantastic display of ideas for your own backyard.

If you've ever thought about having a backyard living room, complete with fireplace, cooking appliances, television and furniture – the G2 Outdoor Living Showcase will be an inspiring surprise! Yes, you can make your own backyard into an entertainment focal point for your family and friends.

The showcase features cooking ranges, BBQ, a refrigerator, a built in bar and plenty of counter space for conversation and eating. The expertly designed and built fireplace truly is a focal point of the display and even provides a television screen for sporting events or evening movies. The warm and rich wood tones of the arbor, fireplace mantle and cooking areas add a Northwest feel and rich experience. "I design all my outdoor living rooms and entertaining spaces to reflect my belief that you can have a better life through better living," notes Garret Hergert – of G2.

G2 founder, Garret Hergert, is a 15-year veteran of the landscape industry and is excited to bring his award winning designs and expertise to the Clark County Parade of Homes. Be sure to visit the G2 Outdoor Living Showcase! You can find him on the web at www.G2outdoorliving.com or by calling (360) 727-5975. G2 would like to thank Lisac's Fireplaces & Stoves, Electronic Essentials, Arrow Timber Framing and Alpha Ecological for making this amazing showcase possible!
